

Managed Partner Development

Build and run your AWS Marketplace reseller channel.

A 12-month engagement that recruits resellers for your listing, contracts them, enables them and runs the deal desk that gets offers issued. **You keep the listing, the seller of record position and the customer relationship.** We run the channel behind it.

| For software vendors with a live AWS Marketplace listing.

WHAT YOU GET

Every tier includes all of the following.

Partner recruitment and onboarding

We identify, qualify, recruit and onboard resellers against the ideal partner profile we agree with you. Every candidate is screened before onboarding against sanctions and denied party lists, adverse media, beneficial ownership including whether any owner or controller is a government official, AWS Partner Network standing, and financial standing.

Partner contracting

We draft, issue and administer the partner agreement and the margin schedule. The agreement is between you and the partner; we run the paperwork.

AWS readiness

We guide each partner through AWS registration, tax and banking details, and service-linked role creation.

A live partner portal

Onboarding workflow, deal registration with approval and decline history, and commission tracking against the margin schedule, synchronized with HubSpot or Salesforce as you specify.

Enablement and training

Sessions at your tier cadence covering your product, offer mechanics, deal registration and the margin schedule.

A CPPO deal desk

Partner deal registrations answered to a published turnaround, with every private offer and CPPO structured and priced ready for issue.

Selling Authorizations

Prepared, submitted and tracked to issue.

Opportunity hygiene

Partner-sourced opportunities filed to ACE, tracked distinctly, with AWS Partner Revenue Measurement attribution configured and verified.

A monthly report

Delivered within 5 business days of month end, in your brand, in a form you can pass on unaltered.

HOW IT RUNS

01

Scope

We agree the ideal partner profile, the tier and the intake channel.

02

Recruit and onboard

Candidates screened, contracted, AWS-registered and enabled.

03

Transact

Partners register deals through the desk; offers and Selling Authorizations go out to the turnaround for your tier.

04

Report and review

Monthly pack, plus a channel review at your tier cadence.

CHOOSE A TIER

	TIER 1	TIER 2	TIER 3
Monthly fee	\$2,500	\$5,000	\$7,500
Net new partner capacity over the engagement	up to 6	up to 12	uncapped roster
Training and enablement	twice yearly	quarterly	monthly
Deal desk turnaround	by close of the next business day	8 business hours	4 business hours
Channel reviews	quarterly	monthly	every two weeks

Tier 3 runs an uncapped roster with an agreed monthly onboarding rate; requests above the rate queue in order, with queue position visible in the portal.

SERVICE LEVELS

COMMITMENT	STANDARD
Selling Authorization, request to issue	4 business days
Monthly reporting pack	Within 5 business days of month end
Cannot transact, or portal unavailable	1 business hour response, updates every 4 business hours
Partner blocked on a live deal	4 business hour response, daily updates
Query not blocking a deal	1 business day response
Information or change request	3 business days response

All contact arrives through a single intake channel, triaged within 2 business hours.

WHAT GETS REPORTED

HEADLINE NUMBER

Offer-Issuing Partners

Distinct partners that issued at least one private offer or CPPO against your listing that month, read from the portal and reconciled against AWS Marketplace seller reporting.

Alongside it: partners onboarded this month and cumulatively, partners pending AWS prerequisites, active partners, deal registrations received, approved and declined, deal desk performance, Selling Authorizations requested and issued, and attributed channel revenue.

NOT INCLUDED

Bespoke integration work, partner marketing spend, channel incentive funding, legal advice, and services to your own direct customers. Each is quoted separately.

Partner numbers are recruitment capacity for the tier, not a guaranteed outcome: we do not warrant that any number of partners is recruited, onboarded, authorized, transacts or becomes active. A partner reaching its first transaction by the end of the quarter following signature is a program target, not a warranty. Where AWS Marketplace mechanics require it, the headline number is Partner-Attributed Transactions. Business hours are 9:00 a.m. to 6:00 p.m. Eastern Time on a business day. Scope, service levels and metrics are as set out in the engagement documentation, which governs.
